Hot Runner Technology

This catalog gives an overview of the latest product, including descriptions, dimensions and technical data. The text next to the graphics gives additional instructions on the use of the product. If available, options are explained with pictures and text. All available accessories for this product are specified. Where necessary, a separate chapter gives the information and important technical data.

General Description of the Nozzle

Hot runner nozzles are the connection to the cavity. They either gate directly into the part or into a sub runner which will feed into the cavity.

General Description of M08 Nozzle Series

This is a standard Molding solutions Nozzle.

Target Group

The target groups of this product catalog are mold designers, toolmakers, molders and service technicians. They will find the needed information in the relevant chapters.

Applied Standards and Norms

- DIN EN IEC/IEEE 82079-1 Edition 2 Creation of usage information for products
- Standard and norms for Technical drawings

Tolerances and Customer Graphics

The product catalog gives a general information about the product. For tolerances and other details, use the customer drawings. There you find the detailed information.

Illustrations simplified, schematically drawn and not to scale. All dimensions in mm.

Bolt Down Manifold

The following picture shows the standard design, components and dimensions.

*

Hot Runner Plate height depending to H1.

Illustrations simplified, schematically drawn and not to scale. All dimensions in mm.

Available Actuator PS 40.2 pneumatic

The following standard actuator is available. Other actuators can be used on request.

Technical Data

Pressure:
6 bar (87 psi)
Min/Max Close Forces:
F open max = 589 N
F close max = 695 N
Stroke:
8 mm

Standard Nozzle Tip

Valve gate - Straight pin - Plunged Through

Tip Style with Description	Picture	Gate diameter
Standard		Ø 0,8 Ø 1,0 Ø 1,2

Illustrations simplified, schematically drawn and not to scale. All dimensions in mm.
Dimensions for reference only. Reference system drawing for complete dimensions prior to machining gate detail in mold.

Cutout Dimensions

The following pictures shows the cutout dimensions for this nozzle.

Abbr.	Written out
Dg	Gate Diameter
Zvh	Cylindrical Gate height

Illustrations simplified, schematically drawn and not to scale. All dimensions in mm.

One Drop Nozzle

MCN-08-30			
H ₀	H ₁	Code	DTE Watt
079	62	MCN-08-30-S8-079	180 W

BARNES™
MOLDING SOLUTIONS

Barnes Molding Solutions is the expert cluster for molds, hot runners, and controls for industrial plastic injection molding. Our brands Foboha, Männer, Synventive, Thermoplay, Priamus and Gammaflux are leaders in their field. We have a comprehensive and in-depth understanding of the automotive, medical, packaging and electronics industries. We support our customers with sophisticated high-performance technologies through to customized turnkey solutions.
