 **BARNES MOLDING SOLUTIONS**

Providing a compatible controller for temporary use

Flexible rental period, tailored to your needs

Fast, on-site delivery

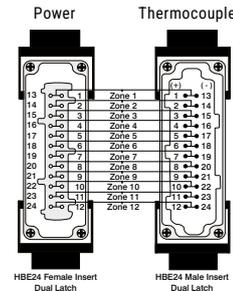

Option to extend the rental or purchase the controller

Bottlenecks? We've got you covered.

Our Rental Controller Service provides a fast and hassle-free solution in case of a system failure or when an inspection is required. By supplying a suitable replacement controller, we ensure your system remains operational and downtime is minimized.

Your benefits at a glance:

- › Minimized production downtime
- › No investment costs for short-term needs
- › Professional support from our after-sales team
- › Transparent cost structure
- › Extended inspection options for part or process-related issues
